On-Demand Videos

[Welcome to Workspace for FX & Money Markets](#)

This video introduces the essential applications within LSEG Workspace designed to support Foreign Exchange and Money Market professionals. Whether you're monitoring market movements, analysing trade data, or managing client orders, you'll get a clear overview of the tools that streamline your end-to-end workflow.

[Learn Trade Execution - LSEG Advanced Dealing](#)

Learn how to trade in the FX and Money Markets with LSEG Advanced Dealing, the latest version of Conversational Dealing. Explore the new features, pre-trade integration with LSEG Workspace, execution capabilities, conversations, deal tickets and post-trade workflow for supported instruments.

[FX Forwards Calculator – Historical Rate Rollover and Pre-Payment \(FWDS\)](#)

Discover how the Historical Rate Roll over and Early Pre-Payment analytics have been integrated into the FX Forwards Calculator (FWDS), giving you a simplified, single interface for key FX Forward lifecycle calculations. In this video you will learn how to extend an existing FX Forward deal to a new settlement date (rollover analytics) as well as how to calculate early take up and pre-payment settlement outcomes along with the associated P&L cash adjustments.

[How to Trade Foreign Exchange with FXall in LSEG Workspace](#)

Discover how to set up your LSEG Workspace layout for efficient trading and integration with pre-trade quotes, calculators, news and charts. Learn how to request executable prices with LSEG FXall's market-leading Competitive Request for Quote capabilities.

[Trade Smarter: Pre-Trade Analytics for Better FX Decisions \(TFTCA\)](#)

Learn how to create pre-trade queries and reports for transaction cost analysis using Tradefeedr analytics. Examine the cost, in basis points (pips), for executing larger Spot FX deals and determine whether to execute via Request for Quote (RFQ) or a trading algo.

[Trade Smarter: Tradefeedr Post-Trade Compliance and Analytics \(TFTCA\)](#)

Post-trade FX execution data plays a critical role in meeting regulatory obligations, monitoring execution quality, and improving trading outcomes. This video course demonstrates how Tradefeedr Transactions Cost Analytics (TFTCA) can be used post-trade to bring greater transparency, consistency and insight for FX execution.
